Survival Skills Workshop Feedback Form

Mylène DiPenta, Electronic Engineering Technician faculty, Kingstec

For Each Key Idea…	Rate Its Value	Rate Its Familiarity
A. Awesome lesson plans can help students learn, but so can decent lesson plans given by well-rested, patient teachers.	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.
B. If grading takes too long, try techniques where students correct the mistakes or write feedback to themselves	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.
C. If students don't use feedback that is provided, try teaching them write feedback, for themselves or each other	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.
D. If students have trouble working independently in shops/labs, try demonstrating the skill live, creating partially-filled note-taking sheets, or using an inspection rubric	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.
E. If you need more or better activities and assignments quickly, try techniques where students choose, modify, or create questions based on a reference book, test bank, etc.	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.
F. If students are not fully following instructions, try handing out a completed sample assignment, demonstrating the skill in person, inspection reports, or correction assignments	Not useable in my work Might be useable Very useable in my work	I disagree with this idea. Idea was new to me. Deepened earlier understanding. Provided nice reminder. I already use idea regularly. Most people already know this.

Overall Comments

Will you use any of these ideas in your work next semester? If so, how? If not, why not?

What did you like best about the workshop?

What changes would you recommend for the workshop?
